

ELKHORN RURAL PUBLIC POWER DISTRICT**POLICY# 3000****AREA SERVICE POLICY**

The District will supply electricity at retail upon written application within the service area of the District if it is economically feasible to service and supply the applicant. In the event that the application involves the installation or construction of and extension of service of more than present extension policies provide for that type of service, then the applicant shall pay in advance of such installation a payment of contribution in aid of construction in the approximate amount of the investment by the District at the then existing rates charged by the District.

In the event that such payment of contribution in aid of construction exceeds the actual ultimate cost to the District, then a refund shall be made to the applicant; in the event that the actual construction cost exceeds the advance estimate, then the customer shall be required to pay the deficiency within 30 days of the completion of the work.
