ELKHORN RURAL PUBLIC POWER DISTRICT

Sheet No. 2 of 2

SEASONAL LARGE POWER, SINGLE PHASE AND THREE PHASE

DETERMINATION OF BILLING DEMAND: The billing demand shall be the applicable one of the following:

1. The maximum demand or
2. The maximum demand corrected for power factor.

FLUCTUATING LOADS: Customers operating equipment having a highly fluctuating or large instantaneous demand such as welders and x-ray machines shall be required to pay all non-betterment costs of isolating the load from the balance of the District's system so that the load will not unduly interfere with service on the District's lines. In addition, customers who fail to provide adequate corrective equipment shall be required to own and maintain their own transformers.

POWER FACTOR ADJUSTMENT: The rates set forth in this schedule are based on the maintenance by the customer of a power factor of not less than 90% at all times. If it is determined by test that the power factor at the time of the customer's peak load is less than 90%, the District at its option may correct the power factor of the customer's load at the expense of the customer.

TERMS OF PAYMENT: Bills are due and payable upon receipt and delinquent if not paid by due date.

TERMS AND CONDITIONS:

1. Service will be furnished under the District's General Terms and Conditions and special terms and conditions as provided in contracts for service under this schedule.
2. Extensions made for service under this schedule are subject to the provisions of the District's rules governing Extension of Service and Facilities.

The rates herein provided are subject to modification by the District to reflect wholesale power rate adjustments and other changes in costs to the District after giving notice to the consumers.
